**DETAILED ACTION**

This Office action is in response to the application filed February 3, 2005.

***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-45 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted elements are: are the characterization of in the preamble of the polymer wherein two comonomeric groups are required. Thus the preamble should indicate that the claimed product is a “copolymer”

Correction is necessary.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. FEIRING et al (6,593,058) is cited of interest to the same assignee, however the disclosed copolymer have norbornenes which contains a ring-substituted group having three or more alkylene groups while the recited norbornene unit contains 2 alkylene groups to give the cyclobutane structure seen here:

KOBO et al (5,229,473) cited in on the PTO/SB/08B likewise discloses a fluorine containing compound with  $l = 3$  which fails to meet the structure claimed.

Art Unit: 1752
